UNIVERSITY EXAMINATION BY-LAWS, MEDICAL DEFERRAL & INTEGRITY POLICY

Clause 3.1: Mandatory Attendance Requirement

Students must maintain a minimum of 80% attendance in lectures and laboratory sessions. Students falling below 80% without an approved medical excuse will be barred from sitting the final examination.

Clause 4.1: Medical Deferral Policy (I-Grade)

If a student passes the coursework component (40% or above) but misses the final examination due to hospitalization or certified illness, they must submit a valid Medical Certificate within 5 working days of the exam date. Approved candidates receive an I-Grade (Incomplete) and may sit the next available examination as a First Attempt with uncapped marks.

Clause 4.2: Repeat Examination and Grade Capping

If a student fails a module (below 40%) or misses an exam without an approved medical deferral, the maximum grade awarded for the repeat attempt is capped at Grade C (40% - 49%, GPA 2.0).

Clause 5.1: Academic Integrity and GitHub Audit Policy

Plagiarism or uploading all source code in a single Git commit (single-push repository history) will trigger an Academic Integrity Review. Confirmed offenses result in an automatic mark of 0% for the assessment and disqualification from First Class Honours.
